HUD FY04 SUPERNOFA

INFORMATION

Today, the U.S. Department of Housing and Urban Development published its Fiscal Year 2004 SuperNOFA (Super Notice of Funding Availability) announcing the availability of grants to fund HUD programs in communities across the country. A total of \$2.3 billion in HUD funds are now available through competitive programs that serve homeless persons, produce affordable housing, stimulate economic development and protect children from the dangers of lead poisoning. Using the Fiscal Year 2004 SuperNOFA, units of local government, faith-based and other nonprofit community organizations can take advantage of 49 separate funding opportunities. Under the SuperNOFA system, grants are awarded more quickly and efficiently to local and state governments, public housing authorities, nonprofit and faith-based groups, and other organizations. The Columbus, Cleveland and Cincinnati Field Offices want you to have this information as soon as possible.
